

What is Conscience?

A conscience is the voice in your head, and the feeling in your heart, that tells you if something is right or wrong. Your conscience works like a super computer that compares what you are about to do against your core values to help you know if your actions are right or wrong.

Core Values are guiding beliefs about how people should act and treat each other. Some examples of core values are Honesty, Respect, Responsibility, Caring, and Fairness.

Input the actions into the Conscience 3000-s super computer to compare them against these core values.
Check the correct output and write which core value(s) you used.

Inputs	conscience 3000-s output
<p><i>Example:</i> Breaking a window and blaming it on your friend.</p>	<p>Feels like: the <input type="checkbox"/> right thing <input checked="" type="checkbox"/> wrong thing to do. Core Value: Honesty</p>
<p>Doing your own work, without copying someone else's work.</p>	<p>Feels like: the <input checked="" type="checkbox"/> right thing <input type="checkbox"/> wrong thing to do. Core Value: <u>Honesty</u></p>
<p>Telling your friends to ignore someone because you don't like their clothes.</p>	<p>Feels like: the <input type="checkbox"/> right thing <input checked="" type="checkbox"/> wrong thing to do. Core Value: <u>Respect, Caring</u></p>
<p>Following the rules in a game, even though cheating a little would help you win.</p>	<p>Feels like: the <input checked="" type="checkbox"/> right thing <input type="checkbox"/> wrong thing to do. Core Value: <u>Fairness, Honesty</u></p>
<p>Watching TV instead of finishing your chores.</p>	<p>Feels like: the <input type="checkbox"/> right thing <input checked="" type="checkbox"/> wrong thing to do. Core Value: <u>Responsibility</u></p>
<p>Being quiet in class so your classmates can hear the lesson.</p>	<p>Feels like: the <input checked="" type="checkbox"/> right thing <input type="checkbox"/> wrong thing to do. Core Value: <u>Respect, Caring, Fairness</u></p>
